MONDAY, Sept. 30.—P. M.
The following table, compiled from official sources, shows the comparative receipts of flour and grain at New-York during the month of September, 1877, and 1878, and the sources of supply:

1877. 1878.

Flour, Grain, 8,941,111, 11,075,584
Wheat, bushels, 1,206,000, 15
Cotton, 500, 15, 18
Rice, 1,000, 100, 40
Oats, 1,000, 100, 40
Gold Standard, 700, 10, 10
Water routes, 300, 12

Total, 8,941,111, 11,075,584

Totals per cwt., 428,000, 428,000

Flour, 8,941,111, 11,075,584
Wheat, bushels, 1,206,000, 15
Cotton, 500, 15, 18
Rice, 1,000, 100, 40
Oats, 1,000, 100, 40
Gold Standard, 700, 10, 10
Water routes, 300, 12

Total, 8,941,111, 11,075,584

It will be seen that the receipts of all grain in September this year were 4,062,093 bushels greater than in 1877; of that again the water routes—nearly all canal—obtained 2,581,348 bushels, and all the railroads, 2,380,745. These figures are not only interesting because showing the earlier movement of the crops, but also because they illustrate the competition which the railroads have had with the canal in order to secure so large a proportion of the grain. The figures also represent a business which has been done, and not that of future. The total movement for September, 1878, was divided thus: 6,047,780 bushels by all the railroads, and 9,989,597 bushels by the water routes. In striking contrast with the large increase at New-York are the comparative receipts at Milwaukee for the same month, which were as follows:

September. 1877. 1878. Decrease.

All grain. 1,206,000, 15 Bushels.

First week. 919,978 492,655 426,320

Second week. 1,360,761 564,260 400,501

Third week. 1,585,419 645,549 939,570

Fourth week. 2,169,926 811,760 1,348,163

Total. 6,026,111 2,003,804 3,521,307

The transactions at the Stock Exchange to-day were \$2,000 shares smaller than on Saturday; and while at moment the market was still considered strong, the prevailing feature was fatigue.

No change was noted in the list of native stocks. Lake Shore to-day rather assumed the lead. This stock opened at 68 1/4, declined to 68 3/4, and then rapidly advanced to 69 1/2. Halting here, but ruling firm at better than 69 1/4, it was dull until near the close, when a pressure of stock sent back the price to opening figures. The St. Paul, too, had a quiet day, with its prices, however, finally closed lower.

In the lower prices, the preferred selling ex

changed in the afternoon at 68 1/2@67 1/2, against 71 1/2@71 1/2 earlier in the day. The North-westerns are a mystery to the street, because of the peculiar operations in them of a prominent broker, who seems to sell and buy in a very profligate manner. The common stocks to-day fluctuated just a few cents, closing the lower, 41 1/4, and the preference between 71 1/2 and 71 1/4, closed at 71 1/4. Wabash was worked into an unnatural activity, and 18 1/2 at one moment was bid high, but it later sold at 18 1/4 and closed dull.

The coal stocks to-day exhibited none of the buoyancy which characterized the dealings of Saturday; Delaware, Lackawanna and Western remained to 55 1/2@55 1/2, and the others declined in proportion to the present condition and interest prospects of the coal trade, attention is invited to an important article reprinted from The Engineering and Mining Journal. Western Union was inactive but firm all the way, closing at 97. The prospects now are that before the end of the week the new opposition line of telegraph to Philadelphia will be opened to the public. The market closed feverish and unsettled.
